August 2023

Tradition Eight:

Overeaters Anonymous should remain forever nonprofessional but our service centers may employ special workers.

This tradition reminds me that I am a part of this fellowship because I am a compulsive overeater and that is all I need. I do not have to have professional qualifications or expect that my fellows will either. Even if a person I encounter in program does work in a field that is related to my addiction; in our meetings and recovery gatherings I support others only by sharing my experience, strength and hope in recovery. In this way we are all equals. In service to the program I give of my self to support the fellowship. The program is not a means to solicit or give professional advice or sell anything for profit. What I give is returned many times over by the support and encouragement of my fellows in OA.
